A decorative border of red umbrellas surrounds the text. The umbrellas are arranged in a grid-like pattern, with some rows having more umbrellas than others, creating a frame around the central content.

Dear 4AM,

What a week this has been. I hope you are all well. I have really enjoyed our learning adventure, as we all get used to Google Classroom. It has been wonderful to see the commitment of children who are continuing to aim high in their learning, even when they are at home.

I know that not everything has worked the first time, but I definitely feel that we are learning from our mistakes. If we all work together, Google Classroom will become better and better. As we keep learning, I will continue to post messages on the stream to help you and make Google Classroom even easier to use. **Please ensure every time you log into Google Classroom, that you check the stream and read any new messages.** The most important messages are at the top of the feed. This will help you to keep up to date with any new information and save the same questions being repeatedly asked! Some children have asked questions when they are stuck; I am so grateful that Google Classroom is allowing us to still communicate and ask questions as we develop our growth mindset. At the bottom of the letter I have included some work from this week for us to celebrate! **If you are not yet on Google Classroom, please make sure that you join next week and if you are having any problems please email: year4lfp@theparkfederation.org**

Next week, each day of learning will be in a different assignment. This means that every day you can complete the work and press submit. **Please only upload your work for day 1 English, day 2 Maths and the science task.** I will return all of these pieces of work with feedback.

Please do not forget that we also have our online platforms such as **Bug Club, MyMaths** and **Times Table Rock Stars**. All of these are included on our online timetable so please make sure that you are still squeezing them into your busy days. We are still in Year 4 and therefore learning our timetables is still extremely important. In the timetable it says to practise your timetables at 11.50 so please make sure that you are logging into Times Table Rock Stars then.

This week I stayed inside more as the weather where I am was dreary. Whilst it would be wonderful to be outside enjoying the sun, I am sure that this weather has encouraged more people to stay inside- which I am sure is positive. We know that the government has advised that staying at home will save lives so I think maybe we can be thankful for some rain! This week I celebrated two of my best friends' birthdays. Normally, we would all celebrate together but instead we video called, and all held up signs saying, 'Happy Birthday' and sung to them.

Despite the weather, I have continued with my daily exercise. Sometimes, I have exercised inside, following a fitness video on the TV however, I have tried to ensure that I still go out and run a few times a week as I know that getting some fresh air is important, even when the sun is not shining. I have also been continuing to cook and this week I have delved into the world of baking. My first bake was banana bread as we had numerous bananas that were starting to turn brown. I would rate it a 6 out of 10, so still much room for improvement!

Yours sincerely,

Mrs Miles

Mona Lisa

Mona Lisa was 15 when she married Francesco di Bartolomeo di Zanobi del Giocondo was successful in silk merchant and cloth. Mona Lisa was his third wife. Before they got married Mona Lisa's name was Mona Gherardini. Mona Lisa's husband commissioned Leonardo da Vinci to paint a portrait of his wife. After he drew Mona Lisa the painting was one of his prized possessions. In 1911, an ex-employee of the Louvre stole the painting because he believed it belonged in Italy. He walked out with the painting under his coat unexpectedly the police apprehend him 2 years later because he tried to sell the painting to a gallery. When da Vinci got his painting back he was surprised that it hadn't got damaged. In 1956, a vandal threw acid on the lower part of the painting. In the same year, someone threw a rock at it and a tiny chip the paint was eject. After all those dangerous matters the found out a solution and that was to put the Mona Lisa painting behind bulletproof glass.

a phone.
as:

of centimetres, with a decimal place if necessary.

one decimal place between 3 and 4. Two should be closer to 3 and the other closer to 4 than 3.

3.8 / 3.9

1. "I'll go and answer the door then," grumbled the King.
2. "I wonder who it could be at this time of night," he went on.
3. "I must tell Hobbs to oil the lock," he said as he turned the key.
4. "Oh!" he exclaimed as the door swung open, "Who are you?"
5. "I'm a very wet and very cold princess," answered the princess.
6. "Who was hoping that she might, just maybe might, come in from the rain?" she hinted.
7. "Well" said the King "you really must."
8. "That's very kind of you," said the Princess.
9. "You're really sure it's OK?" she questioned.
10. "I am very wet, she said," pointing out the obvious.

Practice Sheet Mild
Placing decimals on lines

Place these decimals on the line. Draw a line from each decimal to round to the nearest whole number. Remember that we round up numbers ending in 5.

1.5, 0.9, 3.2, 4.7, 2.4

7.5, 5.7, 9.9, 6.3, 8.8

Challenge

Write two new numbers between 3 and 4, each with one decimal place. One number must round **up**, and the other must round **down**.

3.2
3.6
