Friday 3rd April 2020

Dear Mole Class,

What a strange couple of weeks it has been since we last saw each other! I have been thinking of you often, wondering how you are getting on at home. I have been impressed to see so many of you logging onto Bug Club and MyMaths – there's some wonderful learning happening on there! I'm sure there's been lots of other exciting learning taking place too – maybe even learning some new skills, such as tying your shoelaces or riding a bike.

I have been busy at home – writing your reports, looking through your English and Maths books, updating your online learning and planning for when we're back in school together. My evenings and weekends have been busy too. Since we can't go out, Mr Blair and I have been doing some decorating and some gardening – it's nice to get outside when the sun is shining!

The children in our village have been going on a Bear Hunt (just like in the famous story) when they're on their daily walk. We all have bears in our windows to help make their walk more exciting. I wonder what you have been doing to entertain yourselves – playing a game, singing a song or making up a silly dance (you do make me laugh with your dances!)

I look forward to hearing what you have been up to and to seeing you all again when we are back in school. I have spoken to Miss D this week – she has asked me to let you know she misses you and hopes you are all smiling. Mrs Ram and Miss Ryder say hi to you all too!

Mrs Blair
