

2<sup>nd</sup> February 2021

Dear Parent/Carer,

**Re: Boosters and tutoring during lockdown**

We hope you are all safe and well and your child/ren are accessing the remote teaching and learning every weekday. During the last few weeks of national lockdown together with the March 2020 lockdown, pupils have missed out on valuable opportunities to learn alongside their friends - the way pupils learn best. Our aim at LFPA is to provide our pupils with the best possible education, which enables them to fulfil their potential and be prepared for the challenges that lie ahead.

As part of our commitment and school ethos, we are running boosters and tutoring sessions for target pupils, starting **Monday 8<sup>th</sup> February**. The extra lessons will cover reading comprehension skills and arithmetic, specific gaps in mathematical skills and knowledge and SPAG.

These boosters and tutoring will take place at different times for eg 8.00-8.45 am, any time during the school day or in the afternoons from 1.30-3.45 pm. All target pupils will receive an email and letter with the form showing the days and times for their sessions. A few of the tutoring sessions will also learning packs to be collected from the front office.

This is a real privilege and an excellent opportunity for your child to achieve greater success towards their end of year targets as well as prepare them for a good start to the next year. We kindly urge to ensure your child logs in to attend these very important and worthwhile sessions.

Please complete and return the reply slips of the letters the teachers will be sending to you.

Thank you for your ongoing support and co-operation.

Yours sincerely,

Ms. H. Buttar  
Principal
