AFRICA

Why is Africa so full of amazing & influential nations?

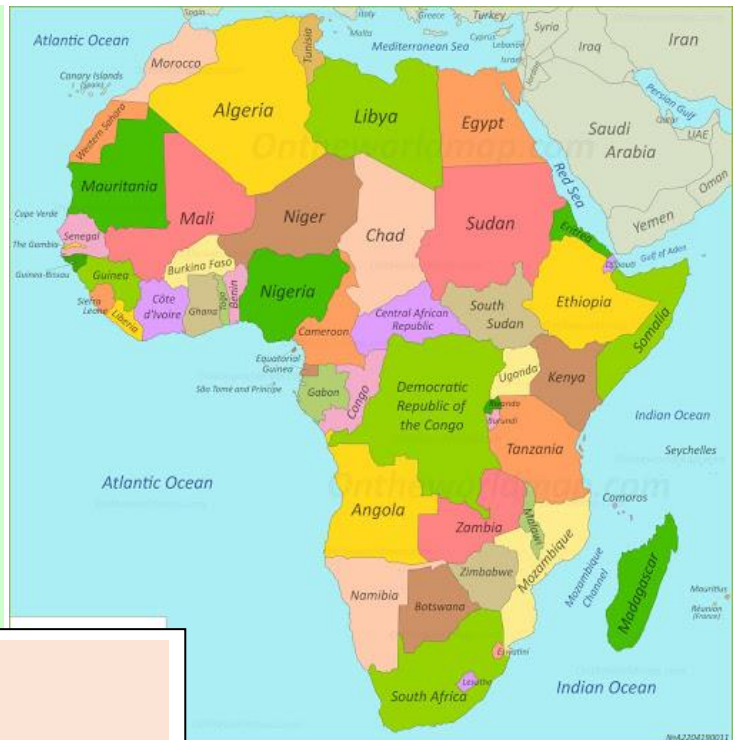

Africa is the second- largest continent in the world.

It covers about 30.3 million km², including its outlying islands.

This is about 20% of the earth's land surface area.

-It is also the second-most popular continent in the world- it has a population of 1.2 billion people (about 16% of the world's Population).

-The continent straddles the Equator, with more of its landmass in the northern hemisphere.
