Sahara Desert, Kalahari Desert, Ethiopian Highlands, Serengeti grasslands, Atlas Mountains, Mount Kilimanjaro, Madagascar Island, Great Rift Valley, the Sahel, and the Horn of Africa

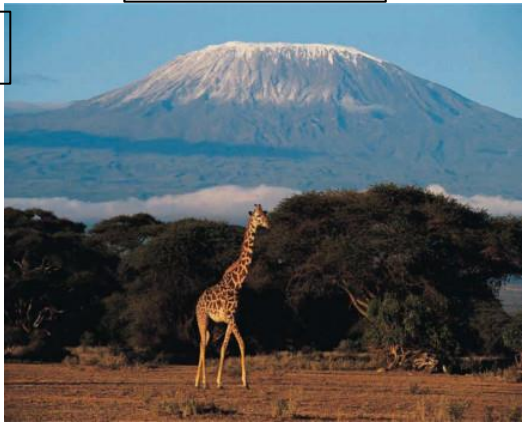

Africa

Africa is the second largest continent after **Asia**. It lies between the Atlantic and Indian Oceans. To the north is the Mediterranean Sea and to the south is the Southern Ocean. The northern part is covered by Earth's largest desert, the Sahara. To the east is the world's longest river, the Nile. Africa has 54 countries, more than any of the other continents. These countries are home to some of the most ancient cultures in the world. Most people still work in farming, producing their own food. Africa has large animal reserves (parks) like the Serengeti, Masai Mara, and Kruger. The reserves are home to wildlife, such as lions, rhinos, zebra, and elephants.

Sahara Desert

Mount Kilimanjaro
